# What You Need to Know About Renters Insurance

A recent survey found that nearly two-thirds of renters don't have insurance. Also revealed were widespread misconceptions about renters insurance. Here's what you need to know about coverage:

- The landlords insurance won't cover your property damage. Likewise, your landlord's insurance won't protect you from liability if a guest injures him or herself in your apartment.
- Your belongings are worth more than you think. Spend a few moments cataloging the items in your apartment. Now, imagine how much it would cost to replace your computer, television, DVD player and compact discs, along with your clothing and furniture. Many renters don't realize how much money they've spent on personal property over the years.
- Renters insurance is affordable. Unlike homeowners insurance, which is getting more expensive, renters insurance is surprisingly cheap. The average premium is \$12 a month for \$30,000 in property coverage and \$100,000 of liability insurance.

Almost all insurance companies sell renters insurance. You can find insurers in the yellow pages under "Insurance" or stop by the office to pick up information that has been provided to us by some local insurers.

*Happy Thanksgiving!*

## Noteworthy...

- Please do not to run any of the following items in your garbage disposal: Grease, potato peels, stringy vegetables, and rice. Just throw those items away as normal trash. This will help keep yours and your neighbors sinks from clogging and backing up. It will also save you a maintenance charge for unclogging your sink. Remember to run plenty of cold water before, during, and after using your disposal.
- Please observe the 15 mph speed limit in the complex. We have a number of children who walk through the parking lot to catch the school bus. And speaking of the parking lot, please be observant of parking between the yellow lines so others may park properly as well.
- When doing laundry make sure you don't overload the machines. Doing so will cause them to malfunction. Also the trash receptacles in the laundry rooms are there only for laundry-related items such as lint, detergent boxes and bottles. Please do not use these containers for disposal of your regular trash.
- A reminder to residents on the 2nd and 3rd floors: Please don't throw anything off your balcony. This includes food, trash, cigarette butts, seed, and liquids. Not only is this dangerous for those below, it is unsightly and attracts the ducks and geese to the buildings. Also, Ducks and geese should not be fed!
