How You Can Save Money on Electric Bills!

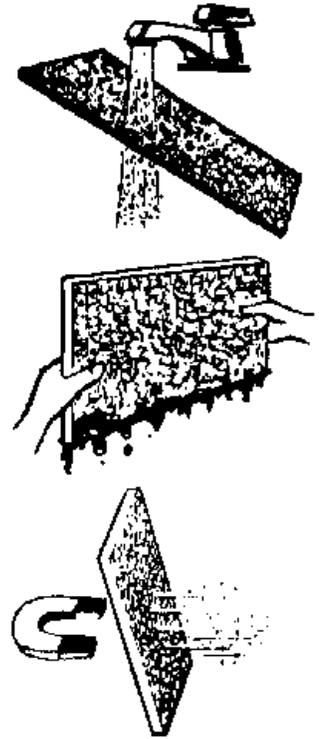

Even though we will be cleaning all air-handler filters in the complex this month, we believe you should be aware of how important it is to keep your filter clean. Why should you clean your filter? Because a dirty filter will cause malfunctions in your cooling system, pollute the air in your home, and.....**INCREASE YOUR COST OF ELECTRICITY!** Therefore, if you will clean your filter every 3 to 4 months, you'll feel better, and save \$\$\$!

Cleaning the filter is easy. You can wash it in the sink or tub. Replace it in the same direction it is facing and you can put it back damp. Do not use soap or detergent and if it is torn or damaged, call the office and we will replace it free!

WASHABLE! Just run water through filter and it's clean in a jiffy! Also vacuum cleanable. It's a permanent filter that will take years of frequent cleaning and remain just as efficient as when new.

FILTERS ELECTROSTATICALLY! The filter is made of natural fibers individually coated with exclusive compound of neoprene and plastic, providing high electrostatic filtering efficiency for catching and holding dust. Works like a magnet!

NEEDS NO OIL! That's why it cleans so easily! No grimy, messy oil to remove or replace, no sticky hands to clean, no sludgy mess to get rid of. Nothing to add - just wash with water!

Just a Few Reminders...

- For those of you who own pets, please remember to clean up after your pet. (A "pooper scooper" is a great tool for this!) And don't forget to keep your pet accompanied and on leash at all times.
- Please notify your guests that parking in the carports is prohibited as they are **RESERVED** for the exclusive use of residents who lease them. All violators will be tagged and towed.
- If you are a smoker, please do not dispose of your ashes and butts in the parking lot, grounds, or pool area. Use a trash can and help keep your community clean.
- Please keep in mind when doing laundry that the Washers run for about 30 minutes and the Dryers run for about 45 minutes. Don't leave clothes in machines for extended periods of time! If you encounter a machine that has not been emptied after it has shut off, you may empty that machine by placing such laundry on top of the dryers. Lastly, please do not wash greasy or oily clothes in these machines. Take them to a laundromat. Thank you.

Arlene Johnson and her daughter Alice invite you to visit their new "Sitting Area" located lakeside between Buildings 6 and 7. It is a peaceful place where you can enjoy beautiful sunsets with family, friends, and neighbors. Arlene built this as a gift of love for her home here at Southlake Village. Feel free to visit and enjoy. And help us keep this place of serenity clean and pristine. Thank you!
